Laboratory of Architecture and Urban Design

EXPERIENCES :

July 2017 Shimizu Corporation
Internship of Construction management engineer

KEY SKILLS :

computer skills MS word, Rhinoceros, Photoshop, Illustrator, Indesign, AutoCAD

COVER LETTER

Amami Iwata
amami_i@keio.jp

To whom it may concern,

I am writing this letter to express my interest in Anatomy of Islands Workshop Lastovo 2018 Temporal Communal Networks.

I am an undergraduate student of an architecture and urban design laboratory, co+laboradovic, Keio university in Tokyo. My professor, Darko Radovic, suggested me to participate in this workshop.

Besides that, I am really interested in sustainable architecture and urban design and, through the workshop, I would like to explore the answers to the four questions written in the brief, which made me reconsider what is good architecture.

co+laboradovic is an international laboratory where the most of the members have overseas experiences. One of the reasons why I joined this laboratory is because I have been eager to develop my design skills through such cross-cultural, multidisciplinary environment. Having this as a motivation, I am really looking forward to discussing the topics in the workshop with colleagues from different countries and cultural backgrounds. If given the chance, it would be unique contribution to your workshop.

Thank you for your time and kind consideration,
Amami Iwata
